**ITEM 7.01. Regulation FD Disclosure**

FTI Consulting, Inc. (“FTI Consulting”) uses a presentation from time to time in its discussions with investors (the “Presentation”). The Presentation includes FTI Consulting’s past and present financial results, operating data and other information. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at [www.fticonsulting.com](http://www.fticonsulting.com).

In the Presentation, FTI Consulting uses information derived from consolidated and segment financial information that may not be presented in its financial statements or prepared in accordance with generally accepted accounting principles in the United States (“GAAP”). Certain of these measures are not presented in accordance with GAAP (“Non-GAAP”) under the rules promulgated by the Securities and Exchange Commission. Specifically, FTI Consulting has referred to the following non-GAAP measures:

- Total Segment Operating Income (Loss)
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Segment EBITDA Margin
- Adjusted Net Income (Loss)
- Adjusted Earnings per Diluted Share
- Free Cash Flow

FTI Consulting has included the definitions of “Segment Operating Income (Loss)” and “Adjusted Segment EBITDA,” which are financial measures presented in accordance with GAAP, in order to more fully define the components of certain Non-GAAP financial measures. FTI Consulting evaluates the performance of its operating segments based on Adjusted Segment EBITDA, and Segment Operating Income (Loss) is a component of the definition of Adjusted Segment EBITDA. FTI Consulting defines “Segment Operating Income (Loss)” as a segment’s share of consolidated operating income FTI Consulting defines “Total Segment Operating Income (Loss),” which is a Non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. FTI Consulting uses Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. FTI Consulting defines “Adjusted Segment EBITDA” as a segment’s share of consolidated operating income before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. FTI Consulting uses Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of its segments because FTI Consulting believes it reflects current core operating performance and provides an indicator of the segment’s ability to generate cash. FTI Consulting defines Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues. FTI Consulting defines “Adjusted Segment EBITDA Margin” as Adjusted Segment EBITDA as a percentage of a segment’s revenues.

FTI Consulting defines “Total Adjusted Segment EBITDA,” which is a Non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. FTI Consulting defines “Adjusted EBITDA,” which is a Non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting believes that the Non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, when considered together with its GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of FTI Consulting’s operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of FTI Consulting’s competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in FTI Consulting’s industry. Therefore, FTI Consulting

also believes that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of its operating results with the operating results of other companies.

FTI Consulting defines “Adjusted Net Income” and “Adjusted Earnings per Diluted Share” (“Adjusted EPS”), which are Non-GAAP financial measures, as net income (loss) and earnings (loss) per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS. Management of FTI Consulting uses Adjusted EPS to assess total company operating performance on a consistent basis. FTI Consulting believes that this Non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, when considered together with its GAAP financial results, provides management and investors with an additional understanding of its business operating results, including underlying trends.

FTI Consulting defines Free Cash Flow as net cash provided by operating activities less cash payments for purchases of property and equipment. FTI Consulting believes this non-GAAP financial measure, when considered together with its GAAP financial results, provides management and investors with an additional understanding of FTI Consulting’s ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting’s Condensed Consolidated Statements of Comprehensive Income. Reconciliations of GAAP to Non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the Presentation.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

## Cautionary Note About Forward-Looking Statements

---

*This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions, share repurchases and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this presentation, words such as "anticipates," "estimates," "expects," "goals," "intends," "believes," "forecasts," "objectives" and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs or estimates will be achieved, and the Company's actual results may differ materially from our expectations, beliefs and estimates. The Company has experienced fluctuating revenues, operating income and cash flow in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, fluctuations in the price per share of our common stock, adverse financial, real estate or other market and general economic conditions, which could impact each of our segments differently, the pace and timing of the consummation and integration of past and future acquisitions, the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients and other risks described under the heading "Part II, Item 1A Risk Factors" in the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2017 filed with the Securities and Exchange Commission ("SEC") and in the Company's other filings with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations." We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.*

(1) Total debt excludes the reduction for deferred debt issue costs of \$3.9 million, \$4.1 million, and \$4.7 million as of September 30, 2017, June 30, 2017 and September 30, 2016, respectively.

(2) See "Financial Tables" and "End Notes: FTI Consulting Non-GAAP Financial Measures" for the definition and reconciliation of Free Cash Flow, which is a non-GAAP financial measure, to the most directly comparable GAAP measure.

## Financial Tables

## Reconciliation of Net Income (Loss) to Adjusted Net Income and Earnings (Loss) Per Diluted Share to Adjusted Earnings Per Diluted Share: Three Months Ended September 30, 2017, June 30, 2017 and September 30, 2016

All numbers in \$000s, except for per share data

	Three Months Ended September 30, 2017	Three Months Ended June 30, 2017	Three Months Ended September 30, 2016
<b>Net income (loss)</b>	<b>\$ 32,214</b>	<b>\$ (5,156)</b>	<b>\$ 21,691</b>
Special charges	-	30,074	-
Tax impact of special charges	(832)	(9,103)	-
Remeasurement of acquisition-related contingent consideration	-	536	-
Tax impact of remeasurement of acquisition-related contingent consideration	-	(204)	-
<b>Adjusted Net Income<sup>(1)</sup></b>	<b>\$ 31,382</b>	<b>\$ 16,147</b>	<b>\$ 21,691</b>
<b>Earnings (Loss) per Diluted Share<sup>(2)</sup></b>	<b>\$ 0.85</b>	<b>\$ (0.13)</b>	<b>\$ 0.52</b>
Special charges	-	0.75	-
Tax impact of special charges	(0.02)	(0.23)	-
Remeasurement of acquisition-related contingent consideration	-	0.01	-
<b>Adjusted Earnings per Diluted Share<sup>(1) (2)</sup></b>	<b>\$ 0.83</b>	<b>\$ 0.40</b>	<b>\$ 0.52</b>
Weighted average number of common shares outstanding – diluted <sup>(2)</sup>	37,746	39,932	42,065

(1) See "End Notes: FTI Consulting Non-GAAP Financial Measures" for the definitions of Adjusted Net Income and Adjusted Earnings per Diluted Share, which are non-GAAP financial measures.

(2) For the three months ended June 30, 2017, the Company reported a net loss and for that period, the basic weighted average common shares outstanding equals the diluted weighted average common shares outstanding for purposes of calculating U.S. GAAP earnings per share because potentially dilutive securities would be antidilutive. For non-GAAP purposes, the Adjusted EPS and diluted weighted average number of common shares outstanding presented herein reflect the impact of the inclusion of share-based awards that are considered dilutive based on the impact of the add-backs included in Adjusted Net Income above.

## Reconciliation of Net Income (Loss) and Operating Income (Loss) to Adjusted EBITDA: Three months ended September 30, 2017 and June 30, 2017

All numbers in \$000s

## Reconciliation of Net Cash Provided by Operating Activities to Free Cash Flow: Three months ended September 30, 2017, June 30, 2017 and September 30, 2016

All numbers in \$000s

	Three Months Ended September 30, 2017	Three Months Ended June 30, 2017	Three Months Ended September 30, 2016
<b>Net cash provided by operating activities</b>	<b>\$ 106,233</b>	<b>\$ 10,887</b>	<b>\$ 70,942</b>
Purchases of property and equipment	(6,894)	(7,296)	(10,872)
<b>Free Cash Flow<sup>(1)</sup></b>	<b>\$ 99,339</b>	<b>\$ 3,591</b>	<b>\$ 60,070</b>

(1) See "End Notes: FTI Consulting Non-GAAP Financial Measures" for the definition of Free Cash Flow, which is a non-GAAP financial measure.

# End Notes

## FTI Consulting Non-GAAP Financial Measures

In this presentation, we sometimes use information derived from consolidated and segment financial information that may not be presented in our financial statements or prepared in accordance with GAAP. Certain of these measures are considered "non-GAAP financial measures" under the SEC rules. Specifically, we have referred to the following non-GAAP financial measures in this presentation:

- Total Segment Operating Income (Loss)
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Segment EBITDA Margin
- Adjusted Net Income
- Adjusted Earnings per Diluted Share
- Free Cash Flow

We have included the definitions of Segment Operating Income (Loss) and Adjusted Segment EBITDA below in order to more fully define the components of certain non-GAAP financial measures in this presentation. We define Segment Operating Income (Loss) as a segment's share of Consolidated Operating Income (Loss). We define Total Segment Operating Income (Loss), which is a non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of Consolidated Operating Income (Loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We use Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of our segments because we believe it reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We define Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenues. We define Adjusted Segment EBITDA Margin as Adjusted Segment EBITDA as a percentage of a segment's revenues.

We define Total Adjusted Segment EBITDA, which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA, which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We believe that the non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, when considered together with our GAAP financial results and GAAP measures, provide management and investors with a more complete understanding of our operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of our operating results with the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), which are non-GAAP financial measures, as net income and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that this non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, when considered together with our GAAP financial results, provides management and investors with an additional understanding of our business operating results, including underlying trends.

We define Free Cash Flow as net cash provided by operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of the Company's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Condensed Consolidated Statements of Comprehensive Income.
