**Item 7.01. Regulation FD Disclosure.**

FTI Consulting, Inc. (“FTI Consulting”) uses a presentation from time to time in its discussions with investors (the “Presentation”). The Presentation includes FTI Consulting’s past and present financial results, operating data and other information. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at [www.fticonsulting.com](http://www.fticonsulting.com).

In the Presentation, FTI Consulting uses information derived from consolidated and segment financial information that may not be presented in its financial statements or prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Certain of these measures are not presented in accordance with GAAP (“Non-GAAP”) under the rules promulgated by the Securities and Exchange Commission. Specifically, FTI Consulting has referred to the following non-GAAP measures:

- Total Segment Operating Income
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income (Loss)
- Adjusted Earnings per Diluted Share
- Free Cash Flow

FTI Consulting has included the definitions of “Segment Operating Income (Loss)” and “Adjusted Segment EBITDA,” which are financial measures presented in accordance with GAAP, in order to more fully define the components of certain financial measures not presented in accordance with GAAP (“Non-GAAP”). FTI Consulting evaluates the performance of its operating segments based on Adjusted Segment EBITDA, and Segment Operating Income (Loss) is a component of the definition of Adjusted Segment EBITDA. FTI Consulting defines “Segment Operating Income (Loss)” as a segment’s share of consolidated operating income (loss). FTI Consulting defines “Total Segment Operating Income (Loss),” which is a Non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. FTI Consulting uses Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. FTI Consulting defines “Adjusted Segment EBITDA” as a segment’s share of consolidated operating income (loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. FTI Consulting uses Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of its segments because FTI Consulting believes it reflects current core operating performance and provides an indicator of the segment’s ability to generate cash. FTI Consulting defines “Adjusted Segment EBITDA Margin” as Adjusted Segment EBITDA as a percentage of a segment’s revenues.

FTI Consulting defines “Total Adjusted Segment EBITDA,” which is a Non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. FTI Consulting defines “Adjusted EBITDA,” which is a Non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of

acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting believes that the Non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, when considered together with its GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of FTI Consulting's operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of FTI Consulting's competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in FTI Consulting's industry. Therefore, FTI Consulting also believes that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of its operating results with the operating results of other companies.

FTI Consulting defines "Adjusted Net Income" and "Adjusted Earnings per Diluted Share" ("Adjusted EPS"), which are Non-GAAP financial measures, as net income and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS. Management of FTI Consulting uses Adjusted EPS to assess total company operating performance on a consistent basis. FTI Consulting believes that this Non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, when considered together with its GAAP financial results, provides management and investors with an additional understanding of its business operating results, including underlying trends.

FTI Consulting defines Free Cash Flow as net cash provided by operating activities less cash payments for purchases of property and equipment. FTI Consulting believes this non-GAAP financial measure, when considered together with its GAAP financial results, provides management and investors with an additional understanding of FTI Consulting's ability to generate cash for ongoing business operations and other capital deployment.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting's Condensed Consolidated Statements of Comprehensive Income. Reconciliations of GAAP to Non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the Presentation.

#### **Forward Looking Information**

The Presentation may contain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are necessarily based on certain assumptions as of the date such forward-looking statements were made and are subject to significant risks and uncertainties. FTI Consulting does not undertake any responsibility for the adequacy, accuracy or completeness or to update any of these statements in the future. Actual future performance and results could differ from that contained in or suggested by the forward-looking statements.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

*First Quarter 2017 Earnings Conference Call*

## Cautionary Note About Forward-Looking Statements

---

*This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions, share repurchases and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this presentation, words such as "anticipates," "estimates," "expects," "goals," "intends," "believes," "forecasts," "targets," "objectives" and variations of such words or similar expressions, are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs, projections and growth targets are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs, estimates or growth targets will be achieved, and the Company's actual results may differ materially from our expectations, beliefs, estimates and growth targets. The Company has experienced fluctuating revenues, operating income and cash flow in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, fluctuations in the price per share of our common stock, adverse financial, real estate or other market and general economic conditions, which could impact each of our segments differently, the pace and timing of the consummation and integration of past and future acquisitions, the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients and other risks described under the heading "Item 1A Risk Factors" in the Company's most recent Form 10-K filed with the SEC and in the Company's other filings with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations." We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.*

# First Quarter 2017

## Select Cash Position and Capital Allocation

All numbers in \$000s, except for DSOs

	Q1 2017	Q1 2016
<b>Cash and cash equivalents</b>	\$120,959	\$114,451
<b>Accounts receivable, net</b>	\$526,180	\$553,230
<b>Days sales outstanding ("DSO")</b>	98	98
<b>Net cash used in operating activities</b>	(\$93,087)	(\$33,099)
<b>Purchases of property and equipment</b>	(\$5,831)	(\$6,362)
<b>Purchase and retirement of common stock</b>	(\$36,918)	(\$2,903)
<b>Total Debt<sup>(1)</sup></b>	\$407,000	\$507,000
<b>Free Cash Flow<sup>(2)</sup></b>	(\$98,918)	(\$39,461)

(1) Total debt excludes the reduction for deferred debt issue costs of \$4.3 million and \$5.0 million as of March 31, 2017 and 2016, respectively.

(2) See "Financial Tables" and "End Notes: FTI Consulting Non-GAAP Data Reconciliations" for the definition and reconciliation of Free Cash Flow, which is a non-GAAP financial measure, to the most directly comparable GAAP measure.

## Financial Tables

## Reconciliation of Net Income to Adjusted Net Income and Earnings Per Share to Adjusted Earnings Per Share:

Three Months Ended March 31, 2017 and 2016, and December 31, 2016

All numbers in \$000s, except for per share data

	Three Months Ended March 31, 2017	Three Months Ended December 31, 2016	Three Months Ended March 31, 2016
<b>Net income</b>	<b>\$14,016</b>	<b>\$7,101</b>	<b>\$30,181</b>
Special charges	-	3,634	5,061
Tax impact of special charges	-	(1,113)	(1,792)
Remeasurement of acquisition-related contingent consideration	166	423	980
Tax impact of remeasurement of acquisition-related contingent consideration	(65)	(165)	(380)
<b>Adjusted Net Income <sup>(1)</sup></b>	<b>\$14,117</b>	<b>\$9,880</b>	<b>\$34,050</b>
<b>Earnings per common share – diluted</b>	<b>\$0.34</b>	<b>\$0.17</b>	<b>\$0.73</b>
Special charges	-	0.09	0.12
Tax impact of special charges	-	(0.03)	(0.04)
Remeasurement of acquisition-related contingent consideration <sup>(2)</sup>	-	0.01	0.02
<b>Adjusted EPS – diluted <sup>(1)</sup></b>	<b>\$0.34</b>	<b>\$0.24</b>	<b>\$0.83</b>
Weighted average number of common shares outstanding – diluted	41,245	42,018	41,148

(1) See "End Notes: FTI Consulting Non-GAAP Data Reconciliations" for the definition of Adjusted Net Income and Adjusted Earnings per Diluted Share, which are non-GAAP financial measures.

(2) EPS impact for three months ended March 31, 2017 and related tax impact for three months ended March 31, 2017 and 2016, and December 31, 2016, round to \$0.00 per share.

## Reconciliation of Net Income and Operating Income to Adjusted EBITDA: Three months ended March 31, 2017 and December 31, 2016

All numbers in \$000s

Three Months Ended March 31, 2017							
	Corporate Finance & Restructuring	Forensic and Litigation Consulting	Economic Consulting	Technology	Strategic Communications	Unallocated Corporate	Total

Purchases of property and equipment	(5,831)	(6,362)
<b>Free Cash Flow<sup>(1)</sup></b>	<b>(\$98,918)</b>	<b>(\$39,461)</b>

# End Notes

## FTI Consulting Non-GAAP Data Reconciliations

*In the accompanying analysis of financial information, we sometimes use information derived from consolidated and segment financial information that may not be presented in our financial statements or prepared in accordance with GAAP. Certain of these measures are considered "non-GAAP financial measures" under the SEC rules. Specifically, we have referred to the following non-GAAP measures in this presentation:*

- Total Segment Operating Income
- Adjusted EBITDA
- Total Adjusted Segment EBITDA
- Adjusted EBITDA Margin
- Adjusted Net Income (Loss)
- Adjusted Earnings per Diluted Share
- Free Cash Flow

*We have included the definitions of Segment Operating Income (Loss) and Adjusted Segment EBITDA below in order to more fully define the components of certain non-GAAP financial measures in this presentation. We define Segment Operating Income (Loss) as a segment's share of Consolidated Operating Income (Loss). We define Total Segment Operating Income (Loss), which is a non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of Consolidated Operating Income (Loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We use Adjusted Segment EBITDA as a basis to internally evaluate the financial performance of our segments because we believe it reflects current core operating performance and provides an indicator of the segment's ability to generate cash. We define Adjusted Segment EBITDA Margin as Adjusted Segment EBITDA as a percentage of a segment's revenues.*

*We define Total Adjusted Segment EBITDA, which is a non-GAAP financial measure, as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses. We define Adjusted EBITDA, which is a non-GAAP financial measure, as consolidated net income before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We believe that the non-GAAP financial measures, which exclude the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges, when considered together with our GAAP financial results and GAAP measures, provide management and investors with a more complete understanding of our operating results, including underlying trends. In addition, EBITDA is a common alternative measure of operating performance used by many of our competitors. It is used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP measures, provide management and investors with additional information for comparison of our operating results with the operating results of other companies.*

*We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), which are non-GAAP financial measures, as net income and earnings per diluted share, respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total Company operating performance on a consistent basis. We believe that this non-GAAP financial measure, which excludes the effects of the remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt, when considered together with our GAAP financial results, provides management and investors with an additional understanding of our business operating results, including underlying trends.*

*We define Free Cash Flow as net cash provided by operating activities less cash payments for purchases of property and equipment. We believe this non-GAAP financial measure, when considered together with our GAAP financial results, provides management and investors with an additional understanding of the Company's ability to generate cash for ongoing business operations and other capital deployment.*

*Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable with other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Condensed Consolidated Statements of Comprehensive Income.*
