Item 7.01. Regulation FD Disclosure.

FTI Consulting, Inc. (“FTI Consulting”) uses a presentation from time to time in its discussions with investors and financial analysts (the “Presentation”). The Presentation includes FTI Consulting’s past and present financial results, operating data and other information. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at www.fticonsulting.com.

FTI Consulting has included the definitions of “Segment Operating Income (Loss),” “Adjusted Segment EBITDA” and “Adjusted Segment EBITDA Margin,” measures of financial condition or performance determined in accordance with U.S. generally accepted accounting principles (“GAAP”), below in order to more fully define the components of the certain measures of financial condition or performance not determined in accordance with GAAP (“Non-GAAP”) presented in the Presentation. FTI Consulting defines “Segment Operating Income (Loss)” as a segment’s share of Consolidated Operating Income (Loss) and “Total Segment Operating Income (Loss)” as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. FTI Consulting uses “Segment Operating Income (Loss)” for the purpose of calculating “Adjusted Segment EBITDA.” FTI Consulting defines Adjusted Segment EBITDA as a segment’s share of Consolidated Operating Income (Loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. FTI Consulting defines “Adjusted Segment EBITDA Margin” as Adjusted Segment EBITDA as a percentage of a segment’s revenues. FTI Consulting uses Adjusted Segment EBITDA to internally evaluate the financial performance of its segments because FTI Consulting believes it is a useful measure which reflects current core operating performance and provides an indicator of the segment’s ability to generate cash.

FTI Consulting defines Non-GAAP financial measures, (i) “Total Adjusted Segment EBITDA” as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses, and (ii) “Adjusted EBITDA” as Consolidated Net Income (Loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting believes that its Non-GAAP financial measures, when considered together with its GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of FTI Consulting’s operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. In addition, EBITDA and Adjusted EBITDA are common alternative measures of operating performance used by many of FTI Consulting’s competitors. They are used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in FTI Consulting’s industry. Therefore, FTI Consulting also believes that these Non-GAAP financial measures, considered along with corresponding GAAP financial measures, provide management and investors with additional supplemental information for comparison of FTI Consulting’s operating results to the operating results of other companies.

FTI Consulting defines “Adjusted Net Income” and “Adjusted Earnings per Diluted Share” (“Adjusted EPS”) as Net Income (Loss) and earnings per diluted share (“GAAP EPS”), respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. FTI Consulting uses Adjusted Net Income for the purpose of calculating Adjusted EPS. FTI Consulting uses Adjusted EPS to assess total company operating performance on a consistent basis. FTI Consulting believes that this Non-GAAP financial measure, when considered together with its GAAP financial results and GAAP financial measures, provides management and investors with a more complete understanding of its business operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting’s Consolidated Statements of Comprehensive Income. Reconciliations of Non-GAAP financial measures to GAAP are included in the Presentation.

The Presentation may contain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are necessarily based on certain assumptions as of the date such forward-looking statements were made and are subject to significant risks and uncertainties. FTI Consulting does not undertake any responsibility for the adequacy, accuracy or completeness or to update any of these statements in the future. Actual future performance and results could differ from that contained in or suggested by the forward-looking statements.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.

FTI Consulting, Inc.

Third Quarter 2016 Earnings Conference Call

Cautionary Note About Forward-Looking Statements

This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve uncertainties and risks. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues, future results and performance, expectations, plans or intentions relating to acquisitions and other matters, business trends and other information that is not historical, including statements regarding estimates of our future financial results. When used in this presentation, words such as "anticipates," "estimates," "expects," "goals," "intends," "believes," "forecasts," "targets," "objectives" and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, estimates of our future financial results, are based upon our expectations at the time we make them and various assumptions. Our expectations, beliefs, projections and growth targets are expressed in good faith, and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs, estimates or growth targets will be achieved, and the Company's actual results may differ materially from our expectations, beliefs, estimates and growth targets. The Company has experienced fluctuating revenues, operating income and cash flow in prior periods and expects that this will occur from time to time in the future. Other factors that could cause such differences include declines in demand for, or changes in, the mix of services and products that we offer, the mix of the geographic locations where our clients are located or where services are performed, adverse financial, real estate or other market and general economic conditions, which could impact each of our segments differently, the pace and timing of the consummation and integration of past and future acquisitions, the Company's ability to realize cost savings and efficiencies, competitive and general economic conditions, retention of staff and clients and other risks described under the heading "Item 1A Risk Factors" in the Company's most recent Form 10-K filed with the SEC and in the Company's other filings with the SEC, including the risks set forth under "Risks Related to Our Reportable Segments" and "Risks Related to Our Operations." We are under no duty to update any of the forward-looking statements to conform such statements to actual results or events and do not intend to do so.

End Notes

FTI Consulting Financial Measures

We have included the definitions of Segment Operating Income (Loss), Adjusted Segment EBITDA and Adjusted Segment EBITDA Margin, GAAP financial measures, below in order to more fully define the components of certain non-GAAP measures presented in this earnings release. We define Segment Operating Income (Loss) as a segment's share of Consolidated Operating Income (Loss). We define Total Segment Operating Income (Loss), a non-GAAP financial measure, as the total of Segment Operating Income (Loss) for all segments, which excludes unallocated corporate expenses. We use Segment Operating Income (Loss) for the purpose of calculating Adjusted Segment EBITDA. We define Adjusted Segment EBITDA as a segment's share of Consolidated Operating Income (Loss) before depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. We define Adjusted Segment EBITDA Margin as Adjusted Segment EBITDA as a percentage of a segment's revenues. We use Adjusted Segment EBITDA to internally evaluate the financial performance of our segments because we believe it is a useful measure which reflects current core operating performance and provides an indicator of the segment's ability to generate cash.

We define, non-GAAP measures, Total Adjusted Segment EBITDA as the total of Adjusted Segment EBITDA for all segments, which excludes unallocated corporate expenses, and Adjusted EBITDA as consolidated net income (loss) before income tax provision, other non-operating income (expense), depreciation, amortization of intangible assets, remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We believe that our non-GAAP financial measures, when considered together with our GAAP financial results and GAAP financial measures, provide management and investors with a more complete understanding of our operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges and goodwill impairment charges. In addition, EBITDA and Adjusted EBITDA are common alternative measures of operating performance used by many of our competitors. They are used by investors, financial analysts, rating agencies and others to value and compare the financial performance of companies in our industry. Therefore, we also believe that these measures, considered along with corresponding GAAP financial measures, provide management and investors with additional supplemental information for comparison of our operating results to the operating results of other companies.

We define Adjusted Net Income and Adjusted Earnings per Diluted Share ("Adjusted EPS"), non-GAAP financial measures, as net income (loss) and earnings per diluted share ("GAAP EPS"), respectively, excluding the impact of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt. We use Adjusted Net Income for the purpose of calculating Adjusted EPS. Management uses Adjusted EPS to assess total company operating performance on a consistent basis. We believe that this measure, when considered together with our GAAP financial results and GAAP financial measures, provides management and investors with a more complete understanding of our business operating results, including underlying trends, by excluding the effects of remeasurement of acquisition-related contingent consideration, special charges, goodwill impairment charges and losses on early extinguishment of debt.

Non-GAAP financial measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, the information contained in our Consolidated Statements of Comprehensive Income. Reconciliations of non-GAAP financial measures to GAAP are included in the financial tables accompanying this press release.

Appendix

Third Quarter 2016 Awards & Accolades

FTI Consulting and Compass Lexecon recognized as **Most Highly Regarded Firms in *Who's Who Legal: Consulting Experts Guide*** – garners **top position with 98 experts** recognized – the most experts named of any firm
